IAC Ch 134, p.1

## 567—134.2 (455G) Certification requirements.

**134.2(1)** A groundwater professional must be certified as provided in 134.3(455G) before engaging in activities described in 134.1(455G), except that a person engaging in activities described in 134.1(455G) need not be certified if that person is under direct supervision of a certified groundwater professional when engaging in such activities.

- **134.2(2)** In order to be certified as a groundwater professional, a person must be one or more of the following:
- a. A person certified by the American Institute of Hydrology as a Professional Hydrologist, Professional Hydrogeologist, or Professional Hydrologist (Groundwater).
- b. A person certified by the National Water Well Association or Association of Groundwater Scientists and Engineers as a Groundwater Professional.
  - c. A person certified by the American Board of Industrial Hygiene as an Industrial Hygienist.
  - d. A professional engineer registered in Iowa.
- e. A professional geologist certified by a national organization (e.g., American Institute of Professional Geologists, American Association of Petroleum Geologists, Society of Independent Earth Scientists).
- f. Any person with five years of direct or related experience and training as a groundwater professional or in the field of earth sciences. This must include a minimum of at least two years of education and training, and two years of experience as a groundwater professional.
- g. Any person with a license, certification, or registration to practice hydrogeology or groundwater hydrology issued by any state in the United States or by a national organization, provided that the license, certification, or registration process requires, at a minimum, both of the following:
  - (1) Possession of a bachelor's degree from an accredited college.
  - (2) Five years of related professional experience.
- 134.2(3) In order to be certified as a groundwater professional, the applicant must complete the two-day risk-based correction action (RBCA) course and pass a certification examination offered or authorized by the department.
  - a. An applicant who fails an initial examination may take a second examination.
- b. Failure of the second examination will result in termination of the application. A person may reapply for groundwater professional certification. The applicant must complete a regularly scheduled course of instruction before retaking the certification examination.
- *c*. Professional engineers who qualify for an exemption from taking the certification examination under subrule 134.3(6) must attend the RBCA initial course of instruction in order to be certified.
